# 2M SCALING PROGRAM

## Scaled Balance Chart

## Scaling Plan

Every 30 calendar days you manage to make 5% on your instant funded account, we will scale your balance. This process will repeat until you have reached 200K in scaled balance.

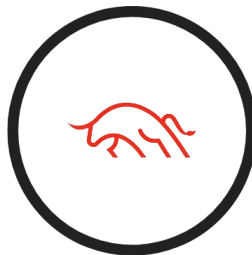

-

If you can not manage to make 5% one month, you can simply try again the next month until you make your 5% and move onto the next phase.

-

At the end of your scaling term, you are eligible to have your daily drawdown limit removed and increase your profit split to 70%
